

GX MANUAL DISC PRINTER

GX DISC PRINTER • Single-Disc Manual Printer

When you're publishing worship services, wedding ceremonies, sports events, trainings, and audio and video performances to disc, you want to make sure that the final product—the disc—looks truly professional. Printing labels to place on your discs doesn't meet this objective, plus it's beyond tedious. And outsourcing direct-to-disc printing can be time consuming and expensive. This is why Microboards Technology has a manual entry-level disc printing solution designed to meet your needs quickly, easily, cost-effectively—and in the comfort of your office.

Designed specifically to print one disc at a time, the GX Disc Printer is the ideal desktop device for those instances when you need to print a single CD, DVD, or Blu-ray Disc (BD) quickly and affordably. At only 23 cents per disc (full color, full coverage), you can upgrade from labels without spending a fortune. And because the printer is only 11.5 inches wide, you can position it virtually anywhere in your office or on the desktop for easy, immediate access.

With the GX Disc Printer, you can expect to see professionally finished discs that, quite simply, look incredible. The technology we use to handle each disc is proven to reduce vibration during the printing process, creating a smoother, cleaner finished image. HP inkjet technology, with HP Vivera inks and the highest resolution (4800 x 1200 dpi) in the industry, works in sync with our handling technology to achieve outstanding results. So whether you're printing discs with full-coverage or light text only, you're certain to see brilliant, long-lasting color on each and every disc.

Take advantage of this opportunity to assume greater control over your digital content with a single-disc printer that adds flair to your discs and professionalism to your endeavors. The GX Disc Printer sets you on that path, and Microboards Technology backs you all along the way with its quality service and technical support.

GX
DISC PRINTER

Part No.: PX2-1000

Disc Input: 1

Typical Weekly Throughput: 1-25 Discs

Ink Cartridges: Single Cartridge: GX-300-HC
